

# Boost - Poultry

## (Mineral Supplement)

Boost - Poultry is designed specifically for poultry to enhance feed conversion and egg quality. Formulated using sodium humates, it has been used in the stock feed industry for over 25 years in China. Sodium is one of the most important electrolytes in all animals and Boost helps maintain it in good quantities.

### Benefits

- Non-toxic.
- The trace elements are water soluble mineral salts complexed with humic acid.
- Calcium is needed for egg formation and strength in layers and bone strength and weight in meat chickens.

### PACKAGING

1 tonne of 25 kg bags  
Product Code: NTSBP-T25

# Boost - Poultry Mineral Supplement
