

SeaChange Stock-Booster™ (Liquid)

A liquid stock supplement based on enzymatically digested Australian Bull Kelp.

This processing technique retains all of the vitamins and enzymes from the raw material. SeaChange Stock-Booster™ contains a broad spectrum analysis including minerals, vitamin, amino acids and a range of polysaccharides which promote natural health. The leading animal nutritionists in the world are kelp enthusiasts, and for good reason.

Benefits

- Biological Farmers of Australia (BFA) Registered Product 456AI.
- Contains high levels of iodine, which is an important trace element for all animals, particularly dairy cattle.
- Features a much better vitamin profile than that found in any land plant.
- Contains alginic acid, which naturally absorbs heavy metals and free radicals.
- Includes other health-generating compounds like fucoidan and laminarin.
- Offers dense mineralisation, with associated health benefits.

PACKAGING

5L, 20 L, 200 L

Product Code: SCSBL

SeaChange Stock-Booster™ (Liquid)

Application Rates

Cattle: 10 mL per animal per day
Sheep & Pigs: 5 mL per animal per day

Miscellaneous

- No withholding period.
- This product contains particles of up to 100-150 microns in size which may block filters or small nozzle sizes.
