

# Personal Prescription Blends™

**Precision Nutrition can be a highly productive strategy.**

- Since 1995, NTS has produced Personal Prescription Blends™ (based on Soil Therapy™ analysis) from the Wondai (near Kingaroy) plant.
- These soil balancing blends, which are generally infused with billions of living micro-organisms have proven very successful.
- Contact your local distributor or NTS on +61 7 5472 9900 or email [info@nutri-tech.com.au](mailto:info@nutri-tech.com.au) for Soil Therapy™ analysis information. This analysis will determine a precise and reliable balance-building option for your farm.

**Mixing 500 tonnes of the Life-Force® living fertiliser blend. One man on a front-end-loader can blend up to 800 tonnes in a day.**
