

The NTS Certificate in Nutrition Farming®

Four Days of Life Changing Discovery

Don't miss this four-day seminar led by internationally acclaimed nutrition specialist, **Graeme Sait**. Learn cutting-edge strategies to improve the health of your farm, your garden, your planet and yourself.

Next Seminar: Monday 16th – Thursday 19th July, 2018

Graeme Sait

Graeme is the CEO and co-founder of Nutri-Tech Solutions (NTS), a world leader in biological agriculture. He is also an author/educator responsible for over 300 published articles and a popular book, "Nutrition Rules!". He created the internationally acclaimed four-day course entitled 'NTS Certificate in Nutrition Farming®' and authored the associated 360-page training manual. Graeme is a sought-after speaker, specialising in soil health, plant health and animal health. More recently, that emphasis has expanded to include planetary health, in recognition of the link between humus and carbon sequestration. He is also an expert in human nutrition and his fascinating presentations cover every aspect of wellness.

Graeme has had major impact influencing farmers, consultants, medicos, governments and key decision makers in Canada, USA, Mexico, Brazil, Europe, Asia, India and of course, Australia and New Zealand (his home country).

Watch Graeme's talk on 'Humus – the essential ingredient' on YouTube or at this link: <https://youtu.be/8Q1VnwcPw7E>.

**Bookings are Essential

Morning Tea and lunch will be provided

10 Reasons to Attend

1

This a rare opportunity to hear an acclaimed, inspirational speaker.

2

You will discover an array of profit building tools. NTS has identified multiple strategies to build yield and efficiency.

3

To comprehend key ratios in the soil and plant to build production and resilience.

4

To increase your crop and soil monitoring skills and improve yield and quality.

5

To understand the secrets of harnessing soil biology as your hidden workforce.

6

You will be better equipped to handle the impact of peak oil, climate change and economic issues.

7

You will be given invaluable information to improve your own health and that of your family.

8

To gain an in-depth understanding of the relationship between nutrition and pest pressure.

9

This course will help you understand that Nutrition Farming® is the shape of the future.

10

To learn cutting-edge strategies to improve the health of your farm, your garden, your planet and yourself.

Course Content

Soil & Plant Health

- **The rationale for the biological approach**
 - discover why there is no other alternative for the future.
- **The secrets of soil test analysis**
 - make this invaluable tool really work for you.
- **Understanding the core inputs**
 - why humates, kelp, inoculums and foliar are such important keys.
- **The art and science of composting**
 - understand how to create this ultimate fertility builder.
- **Mineral management tips**
 - N-P-K, plus all essential soil & plant minerals are discussed.
- **The basics of soil biology**
 - becoming familiar with the key beneficials in the soil foodweb.
- **7 reasons to bring back your earthworms**
 - restoring the missing link in soil productivity.
- **The magic of mycorrhizal fungi**
 - discover how to regenerate and replace your greatest ally.
- **Brewing considerations**
 - how to inexpensively create a replacement workforce.
- **The mechanics of microbial protection**
 - how beneficials can reduce your chemical bill.
- **Monitoring tools and guidelines**
 - understanding key tools for crop and soil monitoring.

- **Leaf analysis interpretation**
 - build your skills and discover 4 key minerals that determine yield.
- **Weed management**
 - strategies to reduce or remove the need for chemicals.
- **The mechanics of leaf testing**
 - how and why this practice can be so productive.
- **The secrets of foliar fertilising**
 - how to achieve maximum benefit from this valuable strategy.
- **The power of visual surveillance**
 - improving your in-field visual monitoring skills.
- **Key foliar strategies**
 - what to use and when to use it.
- **The rewards of seed treatment**
 - discover the potential of supplying a kick start.

Planetary Health

- **The role of agriculture in climate change**
 - no sector is of greater importance in terms of global warming.
- **The urgency for a viable game plan to address global warming**
 - and how we can successfully save the day.
- **The powerhouse link between soil biology and planetary health.**

Human Health

- **Human microbe management**
 - discover the prime importance of probiotic organisms for your health.
- **Mastering micronutrients**
 - unveiling the tricks to trace mineral nutrition.
- **Reclaiming wellness**
 - guidelines to improve your own mineral nutrition and enhance health.
- **Emotions, health and happiness**
 - discover how negative thoughts and patterns can sabotage.
- **The importance of a healthy digestive tract**
 - and an understanding of the life within.
- **How to make your own super-protective, fermented food.**

Comments from Previous Seminars

“Great work guys. Such informative and passionate presentations. It was thoroughly enjoyable and inspiring throughout. This has changed my views on so many aspects of how I approach both agriculture and my own health.”

- Casey White

“Graeme – I would like to thank you from the bottom of my heart for the knowledge, energy and power you have so graciously and unselfishly passed on to all of us.”

- Jason Reimers

“Thanks so much for this remarkable and unforgettable week. Soil improvement, life improvement and great food as well. It's been fantastic.”

- L. R. Wood

“Graeme this has been the most inspirational week of my life. You are so unbelievably knowledgeable and we are so fortunate to come here to share it all. Your whole team has been so very helpful and I would like to thank you all so much.”

- Margery

“Graeme – following your recent near death experience it seems clear to me that God has a plan for your knowledge, inspiration and passion to be spread far and wide. May it serve to usher in a new paradigm as the current system crumbles under the weight of ignorance.”

- Chris

“This has been such a positive week. It has reaffirmed many of my thoughts about how we should farm. This was an amazing and inspiring week. Thank you.”

- Dale Creed

“We were so privileged to attend his course in New Zealand last year, and feel that it is so important to have other people share in this unbelievable input and insight. After all we are what we eat...we are what we drink and we are what we think!!!”

- Margot Isted
