

Building Quality, Productivity and Resilience in Viticulture

Nutrition Farming® – managing minerals, microbes & humus and their interrelationships.

Don't miss these **FREE** half-day workshops led by internationally acclaimed nutrition specialist, Graeme Sait, with co-presenter Dr Tintu Baby, one of Australia's leading specialists in sustainable viticulture agronomy. Learn cutting-edge strategies to improve the health of your vineyard, your planet and yourself.

Upcoming Dates:

Wednesday 12th July, 2017 – Barossa Valley

Thursday 13th July, 2017 – McLaren Vale

Friday 14th July, 2017 – Langhorne Creek

Tuesday 18th July, 2017 – Clare Valley

Thursday 20th July, 2017 – South East SA

Graeme Sait

Graeme is the CEO and co-founder of Nutri-Tech Solutions (NTS), a world leader in biological agriculture. He is also an author/educator responsible for over 300 published articles and a popular book, "Nutrition Rules". He created the internationally acclaimed four-day course 'NTS Certificate in Nutrition Farming®' and is a sought-after speaker, specialising in soil health, plant health and animal health. More recently, that emphasis has expanded to include planetary health, in recognition of the link between humus and carbon sequestration. He consults with leading vineyards across the globe and his workshops are commonly described as "game changers".

Dr Tintu Baby

NTS agronomist Dr Tintu Baby was born into a multi-generation agricultural family in Kerala, India, growing everything from rice to pepper and tropical fruits, all sustainably. She completed a Bachelor of Agricultural Science at Kerala Agricultural University and emigrated to Australia in 2006, where she completed her Honours in Wine and Horticulture, and gained experience in regenerative agriculture as an agronomist with Bio-Tech Organics in SA. She has a PhD in Agriculture and Natural Resources Science from The University of Adelaide, researching salinity effects on grapevine physiology and reproductive performance. Tintu is now based in SA, and will be presenting in these workshops on 'Salinity in vineyards and the soil conditioning effects of humic substances'.

Course Details

Barossa Valley

Wednesday 12th July, 2017

8.30am – 12.00pm (please arrive at 8:00am for registration)

Torbreck Wines

348 Roennfeldt Rd, Marananga SA 5355

McLaren Vale

Thursday 13th July, 2017

8.30am – 12.00pm (please arrive at 8:00am for registration)

Vineyard View Function Room, McLaren Vale Motel & Apartments

Cnr Main Rd & Caffrey St, McLaren Vale SA 5171

Langhorne Creek

Friday 14th July, 2017

8.30am – 12.00pm (please arrive at 8:00am for registration)

The Winehouse

1509 Langhorne Creek Rd, Langhorne Creek SA 5255

Clare Valley

Tuesday 18th July, 2017

8.30am – 12.00pm (please arrive at 8:00am for registration)

Annie's Lane Functions Room

268 Great Northern Road, Watervale SA 5452

South East SA (Padthaway, Wrattobully and Coonawarra regions combined)

Thursday 20th July, 2017

8.30am – 12.00pm (please arrive at 8:00am for registration)

Struan House (Conference Room)

Riddoch Highway, Struan SA 5271

7 Reasons to Attend & Workshop Program

1

This is a rare opportunity to learn from a renowned global viticulture consultant.

2

To improve vineyard resilience in the face of increasing climate change challenges.

3

To discover an array of profit-building tools and strategies to improve yield and efficiency.

4

To increase your crop and soil monitoring skills to reduce problems and boost quality.

5

To understand the secrets of harnessing soil biology as your hidden workforce.

6

To comprehend the potential of mineral balance and key ratios to build production and resilience.

7

To realise the powerful relationship between nutrition and pest pressure.

Workshop Program

- Humus as a tool to improve water management, pest management, nutrient retention, soil structure and crop quality
- Precision management of potassium to reduce disease issues and increase grape size
- New strategies for in-field crop monitoring
- How to harness your soil workforce
- Understanding key mineral ratios in the soil to boost quality and production
- A new strategy for more productive leaf analysis
- Tips to improve nitrogen management and associated resilience
- Discover the biological essentials for success
- The potential for boosting cell strength (with silica and calcium) to increase disease & insect resistance
- Immune elicitation as a sustainability strategy
- Managing vineyard salinity issues
- The soil conditioning potential of humates

Comments from Previous Seminars

“Graeme brings a wealth of knowledge backed up with real life experience, which is unequalled around the world. Ongoing practical and achievable solutions for human, farm and the planet’s problems, this message needs to be heard in every home, farm and government agency!” ”

- Alan Richardson

“A fabulous, inspiring and informative course. I would recommend this course to anyone interested in soils, plants, nutrition and themselves!”

- Robin Wing

“I have sat through a lot of OHS and induction presentations. This has been the most engaging and informative course I have ever attended. I’ve invested in myself and my family’s wellbeing. Thank you!”

- Damien Elsworthy

“Great work guys. Such informative and passionate presentations. It was thoroughly enjoyable and inspiring throughout. This has changed my views on so many aspects of how I approach both agriculture and my own health.”

- Casey White

“Graeme – I would like to thank you from the bottom of my heart for the knowledge, energy and power you have so graciously and unselfishly passed on to all of us.”

- Jason Reimers

“Graeme – following your recent near death experience it seems clear to me that God has a plan for your knowledge, inspiration and passion to be spread far and wide. May it serve to usher in a new paradigm as the current system crumbles under the weight of ignorance.”

- Chris

“We were so privileged to attend his course in New Zealand last year, and feel that it is so important to have other people share in this unbelievable input and insight. After all we are what we eat....we are what we drink and we are what we think!!!”

- Margot Isted
