

Fulvic Acid Powder™

Fulvic acid in a concentrated, soluble powder – the most versatile and productive input in agriculture, in freight friendly form.

Fulvic acid is a powerful organic extract from humates which offers a host of benefits for both the soil and the plant.

BENEFITS

- Australian Certified Organic (ACO) Registered Farm Input 456A1.
- Natural chelating agent.
- Increases nutrient uptake.
- Promotes beneficial soil microbes.
- Improves availability of rock minerals.
- Increases crop yield and quality.
- Compatible with a wide range of other inputs.
- > 90% soluble.

PACKAGING:

5 kg, 20 kg, 500 kg
pallets of 20 kg bags
Product Code: FA70

HUMATES

NTS Fulvic Acid Powder™

APPLICATION RATES

Fertigation:

500 g – 1 kg per hectare

Foliar:

Horticulture

300 – 500 g per hectare

Broadacre

80 – 150 g per hectare

MIXING INSTRUCTIONS

Dissolve product by adding a small amount of water to make a slurry, ensuring all lumps are dissolved before adding sufficient water to make a flowable solution. Mix well and let sit for around 1 hour before use. For larger quantities, NTS Fulvic Acid Powder™ can be added very slowly to a fertiliser pre-mixer vat while agitating vigorously. If your vat does not have vigorous agitation, pre-mix, in batches, prior to addition.

For sensitive spray equipment, the final liquid may need to be pre-filtered (with an appropriate mesh size) to prevent equipment blockages.

The solution must be used promptly. Do not store.

Note: 1 L of NTS Fulvic Acid Liquid™ contains the equivalent fulvic acid to 120 grams of NTS Fulvic Acid Powder™.

TYPICAL ANALYSIS W/W (DRY BASIS)

| | |
|---|------------------|
| Fulvic Acid..... | 70% |
| Total Nitrogen (N) (as organic)..... | 2.5% |
| Total Phosphorus (P) (water soluble)..... | 0.1% |
| Total Potassium (K) (as organic)..... | 6.9% |
| Sulfur (S)..... | 3.9% |
| Magnesium (Mg)..... | 1.8% |
| Calcium (Ca)..... | 1.0% |
| Solubility..... | > 90% |
| Particle Size..... | Very fine powder |

IMPORTANT

- Compatibility and/or performance cannot be guaranteed when combining with other products. Jar test for compatibility and spray on a small area before widespread application.
- Avoid over-agitation/aeration during mixing to prevent foaming.

Disclaimer: Any recommendations provided by Nutri-Tech Solutions Pty Ltd (NTS) or its Distributors are advice only. As no control can be exercised over storage, handling, mixing, application or use, or weather, plant or soil conditions before, during or after application (all of which may affect the performance of our program), no responsibility for, or liability for any failure in performance, losses, damages, or injuries (consequential or otherwise), arising from such storage, mixing, application, or use will be accepted under any circumstances whatsoever. NTS recommend you contact an Agronomist prior to product application. The Buyer assumes all responsibility for the use of any NTS products.
