

Nutri-Life Myco-Force™

Naturally occurring, bio-balancing fungal species to assist in the recovery of previously affected insect damaged plants.

Myco-Force™ is a talc-based formulation containing the beneficial fungal species *Beauveria bassiana*, *Metarhizium anisopliae*, and *Lecanicillium lecanii*. The inclusion of these three species together in one product may prove to be extremely effective.

BENEFITS

- Australian Certified Organic (ACO) Registered Farm Input 456AI.
- May help in reducing the use of toxic chemicals.
- Product can be used right up to harvest time.
- Based upon naturally occurring fungi & bacteria.
- Applicable at all developmental stages.
- A powerful probiotic.

PACKAGING:

1 kg, 5 kg
Product Code:
NLMF

**MICROBIAL
PRODUCTS**

Nutri-Life Myco-Force™

APPLICATION RATES

Foliar Application:

1 kg/ha or 5 grams per L of water for spot spraying. Apply as required.

Soil Application:

1 kg/ha.

Soil Drenching (for small areas with a watering can):

5 grams per L of water.

Note: Initial frequent applications may be required to established beneficial soil fungal populations, however for routine use allow 2 weeks between applications.

INSTRUCTIONS

- This product requires sieving when applied with sensitive spray equipment. Prior to application, mix Myco-Force™ with water to make a slurry at a rate of 1kg/10L. Stir/agitate constantly for 2 minutes then stand for 1 hour. Screen if required, then add to fertigation or spray tank. Screen sizes finer than 125 microns (120 mesh) are not recommended.
- Ensure compliance with your quality assurance code of practice regarding the use of microbial products before use.

COMPOSITION

Contains the species *Beauveria bassiana*, *Metarhizium anisopliae* & *Lecanicillium lecanii*

IMPORTANT

- Do not use near silkworm or honey bee breeding.
- Contains live organisms. Do not mix with fungicides/bactericides, toxic chemicals or soil fumigants. Sanitise spray tank before application.
- All microbial products should be added to the tank last after all other inputs have been diluted. Ideally, apply in the late afternoon. Do not exceed 60 psi.
- Wash hands after use. Avoid spraying close to harvest if produce is susceptible to staining.

STORAGE & HANDLING

- Read safety directions before use.
- While handling, brewing and applying microbial products protective clothing, gloves and face masks should be worn. Contains live organisms. Avoid aerosols generated by aeration. Store in cool, dry place away from sunlight and below 30°C (preferably under refrigeration). Use as soon as possible after opening but if this cannot be achieved then refrigerate remainder immediately after use and use within 3 months. Contamination of contents may occur at any time after opening and NTS takes no responsibility for opened product not used immediately. DO NOT FREEZE.

Disclaimer: Any recommendations provided by Nutri-Tech Solutions Pty Ltd (NTS) or its Distributors are advice only. As no control can be exercised over storage, handling, mixing, application or use, or weather, plant or soil conditions before, during or after application (all of which may affect the performance of our program), no responsibility for, or liability for any failure in performance, losses, damages, or injuries (consequential or otherwise), arising from such storage, mixing, application, or use will be accepted under any circumstances whatsoever. NTS recommend you contact an Agronomist prior to product application. The Buyer assumes all responsibility for the use of any NTS products.
