

# Dominate-F™

A microbial brew adjuvant for stabilisation and fungal domination. Use with LMF™ (Liquid Microbe Food) and a microbial inoculum (such as compost) to produce exceptional brews for promoting growth and bio-balancing.

## MICROBE CULTURING

### BENEFITS

- Australian Certified Organic (ACO) Registered Farm Input 456AI.
- Produces a fungal dominated brew.
- Increases fungal count.
- Reduces contamination issues.
- Improves brew stability.
- Fungal brews are ideal for bio-balancing.

### PACKAGING:

1 L, 5 L, 20 L

Product Code:  
DOMFUN

# Dominate-F™

## BREWING INSTRUCTIONS

All brewing equipment must be thoroughly cleaned before and after use (e.g. using Path-X™ at 100 mL/10 L). When using potentially contaminated water sources (e.g. dam water) treat water first using bleach (4 % available chlorine) at a rate of 50 mL per 100 L of water. Proportional amounts of bleach will be required if the available chlorine % varies. Aerate for at least one (1) hour, until the smell of chlorine dissipates.

## APPLICATION RATES

Use 1 L Dominate-F™ together with 1 L LMF™ (Liquid Microbe Food) per 100 L brew. Refer to inoculums for specific brewing instructions. **Note:** Dominate-F™ should be used in conjunction with LMF™.

## INSTRUCTIONS

- Ensure compliance with your quality assurance code of practice regarding the use of microbial products before use.

## IMPORTANT

- This is a brewing adjuvant, not a microbial inoculum.

## TYPICAL ANALYSIS

SG.....1.2  
pH.....4.4 – 5.4

## STORAGE & HANDLING

- Read safety directions before use.
- **Shake or stir well before use.**
- Store in ambient conditions out of direct sunlight.
- This is not a microbial product but is used in the production of microbial brews. While handling, brewing and applying microbial products protective clothing, gloves and face masks should be worn. Avoid aerosols generated by aeration.

**Disclaimer:** Any recommendations provided by Nutri-Tech Solutions Pty Ltd (NTS) or its Distributors are advice only. As no control can be exercised over storage, handling, mixing, application or use, or weather, plant or soil conditions before, during or after application (all of which may affect the performance of our program), no responsibility for, or liability for any failure in performance, losses, damages, or injuries (consequential or otherwise), arising from such storage, mixing, application, or use will be accepted under any circumstances whatsoever. NTS recommend you contact an Agronomist prior to product application. The Buyer assumes all responsibility for the use of any NTS products.
